

My Mission In This Business

To provide the most accurate residential real estate knowledge and education to the clients I represent and to deliver customer service that will exceed their expectations.

In my experience I have found that there are three things that cannot be compromised in the real estate profession and they are:

- ***Excellent Service***
- ***Accurate & Timely Information***
- ***Knowledge & Education***

It is important as your realtor of choice that I have a thorough understanding of your specific real estate goals and objectives. Having this information will allow me to deliver the service necessary to successfully help you in meeting your needs or putting you in touch with someone who can.

I use a variety of proven resources to provide each client with the most accurate and current information available to acquire or sell their home. These resources range from Free Neighborhood Reports, Free Automatic Home Searches Delivered via Email, Free Home Valuations and many more.

Response times are of utmost importance and if needed I will quickly contact you by phone, fax or email depending on your preference of communication.

Keeping abreast of the real estate industry trends and consistently enhancing my knowledge are top priorities ensuring that each client has access to the most current market information before making their real estate decisions.

Whether you're considering selling your home or buying your first home, let me be the resource that can help simplify the entire process for you.

On the personal side I am a native Oregonian for the last 20 years. I have eleven years in sales and service. This experience has provided me the opportunity to work with an endless variety of different people and situations that have enriched my overall knowledge. Lastly, I enjoy the outdoors, I love sports, movies and most importantly having fun with friends.
